

## Wendy's new location is a big hit!!

Everyone's favorite spot for great burgers and a huge selection of alternatives has now officially opened at a spot that makes it more convenient for all of Aruba. Though the official opening was on Friday morning January 27, with Carnival Queen 51 Nabila De Palm cutting the ribbon, Wendy's on the L.G. Smith Blvd was already serving long lines of people for two weeks before.

Wendy's owner Onno van Romndt and his wife Johanna were on hand for the opening along with General Manager Giovanni Bermudes, who has taken a very personal interest in the outfitting of this prime new location. Popular for their unique square hamburgers, what really draws the people is the unique menu choices of a variety of fresh salads, chili, baked potatoes and some of the best fried chicken on the island. Not to mention that they are the only fast food franchise to offer freshly brewed, authentic ice tea, the perfect way to cool off if one is taking a walk to town in the hot sun.

This new Wendy's, relocated from the Seaport Marketplace to the intersection midway between the big markets and Oranjestad, offers a bright, clean place to dine for the family on the go. Their very varied menu, offers something to make everyone happy, from a weight-watching mom to a ravenous teenager, at affordable prices. We also noticed that the drive-thru was doing a very brisk business, for those that like their burgers and such on the go. Welcome to the new Wendy's!
